

LifeWave Y-Age System Kit

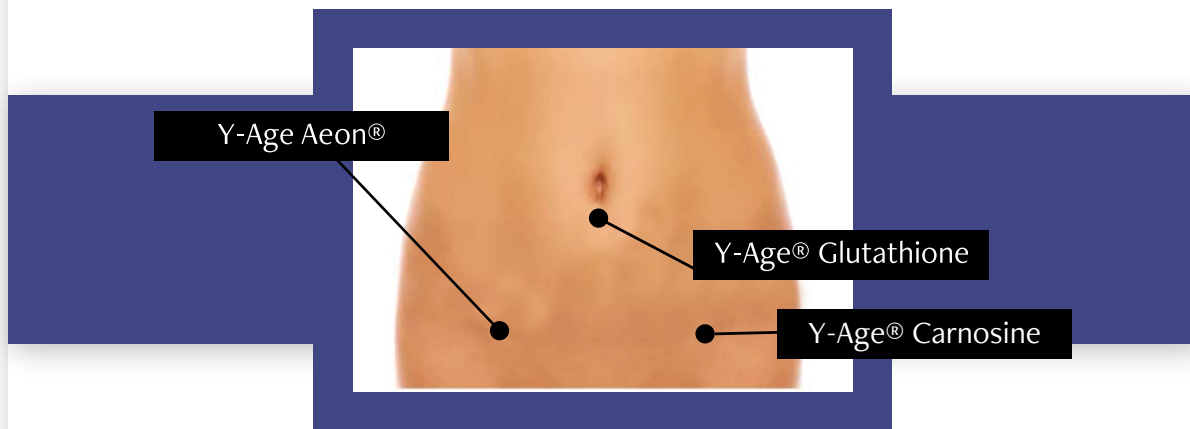

Support yourself through the efficacy of Y-Age Aeon®, Y-Age® Carnosine, and Y-Age® Glutathione. This synergistic combination nurtures your body's essence, allowing you to embrace each day with newfound vitality.

Whether you are trying to conceive naturally, preparing for an IUI/IVF or preventing miscarriage, your reproductive system require a lot of energy & support.

How Do These Patches Work?

Your body emits heat, including heat in the infrared spectrum. The Y-Age System Kit patches are designed to trap this infrared energy when placed on the body, which causes them to reflect it back to stimulate specific points on the skin that can promote repair on a cellular level.

Think of these patches like solar panels for your body.

One sleeve of LifeWave patches contain 30 patches total. One sleeve is equal to approximately 30 days of phototherapy if you are using them for 12 hours on and 12 hours off. The Y-Age System Kit is designed for three different patches to be used simultaneously.

Suggested length of time to use the Y-Age System Kit is a minimum of one month for optimal benefits. One month is equal to one sleeve of patches. Make sure you are well hydrated and have enough minerals in your diet or supplement schedule to optimize the bioelectrical conductivity of these patches.
